

Don't Toss That Fiber Optic Cable (FOC) into the Landfill-

sm@LD4Recycle.com / 803.371.5436

WE WILL PICK IT UP!!!

[\(please right-click to see pictures\)](#)

Solutions for that scrap Fiber Cable

It is near the end of the year. Many Spring and Summer construction projects are winding down.

If you have an excess of Fiber Optic Cable we have an easy solution for you.

Keep aside those fiber cables you feel you may need for maintenance or project expansions.

And we will come pickup the rest. All excess/unused/older/obsolete Fiber Optic Cable do NOT have to be Landfilled.

We accept Outside Plant Cables.

AND, **If your cable meets certain specifications we can pay you.** In addition to that-, **We can be picked it up for you.**

- No need to landfill.
- No need to haggle with those who only want certain cables. We'll take it **all**.
- Don't pay for storage or occupying needed space in your cable yard.

Our philosophy is, "if you haven't used it in the past 6 months you're probably going to end up throwing it out anyway".

Guidelines for Accepting Fiber Optic Cable

- Where is the FOC located?
- Number of reels?
- Reel sizes?
- Mfgr of FOC?
- Lengths on FOC?
- What type of reels?Wooden/steel/other?
- Condition of reels?
- Date (age) of cable – born date?
- Got pictures?
- Can you send a close-up picture of the stenciling (labelling) on cable?
- Manufacturer of the FOC?
- Your contact info?
- What do you do with the FOC scrap/reel ends/pieces today?
